Independent Auditor's Report

Board of Trustees
Forrest County General Hospital
Hattiesburg, Mississippi

We have audited the accompanying balance sheets of Forrest County General Hospital, a component unit of Forrest County, Mississippi (the Hospital), as of September 30, 2016 and 2015, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the Hospital's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Forrest County General Hospital as of September 30, 2016 and 2015, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and postemployment healthcare plan information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The surety bonds for officials and employees information, balance sheets – Pointe Properties, LLC and statements of revenue, expenses and changes in net position – Pointe Properties, LLC listed in the table of contents are presented for the purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

BKD, LLP

Jackson, Mississippi

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Management's Discussion and Analysis
September 30, 2016 and 2015

This section of Forrest County General Hospital's (the Hospital) financial statements presents management's discussion and analysis of the Hospital's financial activities for the fiscal years that ended on September 30, 2016 and 2015. It should be read in conjunction with the accompanying financial statements of the Hospital.

Financial Highlights

2016

- Total operating revenues increased 4.1%. Current year changes impacting operating revenues include:
 - Demand for services continued to improve, as reflected by increases in admissions and surgery cases by 1.5% and 2.8% respectively.
 - Even though the State of Mississippi has chosen not to expand Medicaid, 2016 saw reductions of 8.8% in uncollectible accounts due to increased efforts to lower the uninsured by way of the insurance exchange. However, management is monitoring the increased levels of patients with high deductibles for effects on future cash flows.
 - Continuous improvement in the revenue cycle after implementation of a new electronic health record system contributed to increased operating revenues. Management plans to expand the new system to all facilities during fiscal year 2017.
- Operating expenses increased 4.6%. Current year changes impacting operating expenses include:
 - Salaries, wages and employee benefits increased approximately 3.1%, due to increased demand for services, as well as for preparations made to implement the new electronic health record at the regional facilities. Market and merit adjustments were also given in order to attract and retain quality staff.
 - Medical supplies increased approximately 10.8%, due primarily to price increases in pharmaceuticals and implants needed for surgical cases. Contractual services increased approximately 3.3%, due to expansions of the Family Medicine Residency Program and physician clinics and the need for additional providers due to increased demand.
 - Provisions for medical liability claims increased by approximately 50%. However, plans are in place to monitor and reduce future risk and liability expenses.
 - These increases were offset, in part, by various expense decreases in other areas.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Management's Discussion and Analysis
September 30, 2016 and 2015

2015

- Total operating revenues increased 7.9%. Current year changes impacting operating revenues include:
 - Overall demand for services increased in fiscal year 2015. Acute care admissions increased 5.8%, and surgery cases increased 3.2%. Emergency room visits also increased 5.5%.
 - Continuous improvement in the revenue cycle after implementation of a new electronic health record system contributed to increased operating revenues.
 - Another full year of operations for the Orthopedic Institute, a freestanding 33-bed orthopedic and spine hospital located adjacent to the largest orthopedic and spine physician practice in Hattiesburg, Mississippi, which opened on October 15, 2012. Due to an increased demand and aging population, 2015 saw an 8.1% increase in orthopedic and spine cases with the new facility.
 - Medicaid disproportionate share and upper payment limits payments also increased 20.1% over prior year.
- Operating expenses increased 5.5%. Current year changes impacting operating expenses include:
 - Wages and benefits increased approximately 6.9% due to volume-related increases in full-time equivalent employees, as well as pay increases for market and merit adjustments.
 - Medical supplies increased approximately 7.4% and contractual services increased approximately 8.1%, both primarily due to volume.
 - These increases were offset, in part, by various expense decreases in other areas.

Overview of the Financial Statements

The financial statements consist of three parts: management's discussion and analysis and the financial statements. The financial statements also include notes, required supplementary information and other information.

Required Basic Financial Statements

The Hospital's financial statements consist of three statements—a balance sheet; a statement of revenues, expenses and changes in net position; and a statement of cash flows. These statements provide information about the activities of the Hospital, including resources held by the Hospital but restricted for specific purposes by creditors, contributors, grantors or enabling legislation. The Hospital is accounted

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Management's Discussion and Analysis
September 30, 2016 and 2015

for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting.

The financial statements of the Hospital offer short-term and long-term financial information about its activities. The balance sheet includes all of the Hospital's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Hospital creditors (liabilities). The assets and liabilities are presented in a classified format, which distinguishes between current and long-term assets and liabilities. The balance sheet also provides the basis for computing rate of return, evaluating the Hospital's capital structure and assessing the liquidity and financial flexibility of the Hospital.

The statement of revenues, expenses and changes in net position accounts for all of the current year's revenues, expenses and changes in net position. This statement measures the success of the Hospital's operations over the past year and can be used to determine whether the Hospital has successfully recovered all its costs through its services provided, as well as its profitability and creditworthiness. The statement also shows the roll forward of the Hospital's net position.

The final required financial statement is the statement of cash flows. This statement's primary purpose is to provide information about the Hospital's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments and net changes in cash resulting from operating, investing, noncapital financing and capital related financing activities and provides answers to such questions as: "From where did cash come?", "For what was cash used?" and "What was the change in the cash balance during the reporting period?"

Financial Analysis

One of the most important questions asked about the Hospital's finances is, "Is the Hospital as a whole better off or worse off as a result of the year's activities?" The balance sheet and the statement of revenues, expenses and changes in net position report information about the Hospital's activities in a way that will help answer this question. This statement reports the net position of the Hospital and changes in them. You can think of the Hospital's net position—the difference between assets and liabilities—as one way to measure financial health or financial position. Over time, increases or decreases in the Hospital's net position are one indicator of whether its financial health is improving or deteriorating. However, you will also need to consider other nonfinancial factors, such as changes in economic conditions, regulations and new or changed government legislation.

Management's Discussion and Analysis
September 30, 2016 and 2015

Table A-1
Condensed Balance Sheets (in millions of dollars)

	2016	2015	Dollar Change	Percentage Change
Assets and Deferred Outflows of Resources				
Cash and other current assets	\$ 146.1	\$ 126.7	\$ 19.4	15.3%
Patient accounts receivable, net	53.5	52.4	1.1	2.1%
	<u>199.6</u>	<u>179.1</u>	<u>20.5</u>	<u>11.4%</u>
Investments and other assets	235.3	223.9	11.4	5.1%
Capital assets	336.4	334.0	2.4	0.7%
Deferred outflows of resources	17.0	7.9	9.1	115.2%
	<u>788.3</u>	<u>744.9</u>	<u>43.4</u>	<u>5.8%</u>
Liabilities and Deferred Inflows of Resources				
Current liabilities	\$ 71.1	\$ 72.9	\$ (1.8)	-2.5%
Long-term liabilities	286.8	276.4	10.4	3.8%
Deferred inflows of resources	3.3	5.2	(1.9)	-36.5%
	<u>361.2</u>	<u>354.5</u>	<u>6.7</u>	<u>1.9%</u>
Net Position				
Net investment in capital assets	166.3	156.5	9.8	6.3%
Unrestricted	260.8	233.9	26.9	11.5%
	<u>427.1</u>	<u>390.4</u>	<u>36.7</u>	<u>9.4%</u>
Total liabilities, deferred inflows of resources and net position	<u>\$ 788.3</u>	<u>\$ 744.9</u>	<u>\$ 43.4</u>	<u>5.8%</u>

Table A-1 above shows net cash and other current assets increased by approximately \$19,400,000 from 2015 to 2016. Investments and other assets reflect an increase of approximately \$11,400,000 for the same time period. These changes are due primarily to current year operating results and revenue cycle management. Deferred outflows of resources decreased by approximately \$9,100,000, due primarily to net investment gains on pension plan assets in excess of assumed gains.

Long-term liabilities increased approximately \$10,400,000, due primarily to increases in the net pension obligation (*Note 11*) and deferred compensation arrangements (*Note 15*).

Ending Net Position	<u>\$ 427.1</u>	<u>\$ 390.4</u>	<u>\$ 36.7</u>	9.4%

Table A-3 above shows net patient service revenue increased by approximately \$19,600,000 from 2015 to 2016. The change was primarily the result of an increase in overall patient volume. Acute care admissions increased 1.5% and surgery cases increased 2.8%.

Salaries, wages and employee benefits increased \$7,200,000, due to volume related increases in full-time equivalent employees combined with pay increases for market and merit adjustments. Supplies, contractual services, repairs and maintenance, and other expenses increased by 6.7%, due primarily to increases in volume.

Ending Net Position	<u><u>\$ 390.4</u></u>	<u><u>\$ 352.8</u></u>	<u><u>\$ 37.6</u></u>	10.7%

Table A-4 above shows net patient service revenue increased by approximately \$41,200,000 from 2014 to 2015. The change was primarily the result of an increase in overall patient volume. Acute care admissions increased 5.8%, while surgery cases increased 3.2% and emergency room visits increased 5.5%. Other revenue decreased due to a \$3,300,000 reduction in receipts from the Electronic Health Records reimbursement program.

Salaries, wages and employee benefits increased \$15,100,000, due to volume related increases in full-time equivalent employees combined with pay increases for market and merit adjustments. Supplies, contractual services, repairs and maintenance, and other expenses increased by 4.6%, due primarily to increases in volume.

(A Component Unit of Forrest County, Mississippi)
Management's Discussion and Analysis
September 30, 2016 and 2015

Capital Assets and Debt Financing

Capital Assets

The Hospital's investment in a variety of net capital assets was approximately \$336,400,000 as of September 30, 2016 and \$334,000,000 as of September 30, 2015, as shown in Table A-5 below.

Table A-5
Capital Assets (in millions of dollars)

	2016	2015	2014
Land and land improvements	\$ 30.0	\$ 29.9	\$ 29.4
Buildings	327.8	324.1	312.8
Furniture, fixtures and equipment	289.1	278.6	284.5
Total capital assets	646.9	632.6	626.7
Accumulated depreciation	(338.3)	(313.1)	(303.0)
Construction in progress	27.8	14.5	12.1
Capital assets, net	<u>\$ 336.4</u>	<u>\$ 334.0</u>	<u>\$ 335.8</u>

Debt Financing

During 2016, the Hospital entered into one equipment note as more fully discussed in *Note 4*. In 2015, certain debt agreements were assumed with the purchase of Pointe Properties, LLC. See additional discussion in *Notes 4* and *5*.

For more detailed information regarding the Hospital's capital assets, debt financing and interest rate swap agreements, please refer to the notes to the financial statements that follow this section.

Next Year's Operating Plan

The Hospital's Board of Trustees adopted the fiscal year 2017 operating plan in August 2016. The operating plan for 2017 assumes that inpatient admissions will remain consistent with 2016. The plan includes an increase in net assets of approximately \$22,100,000.

Management continues to anticipate changes from the Patient Protection and Affordable Care Act (PPACA) legislation passed by Congress. These changes call for reduction in payments to all hospitals for Medicare disproportionate share to help pay for this new legislation. Other revenue reductions could come in the form of higher deductible plans, readmission penalties, Recovery Audit Contract (RAC) audits, value-based purchasing requirements, bundled payments, etc. Efforts to work with the Mississippi

Forrest County General Hospital

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

Forrest County General Hospital (the Hospital) is an acute care hospital established by Forrest County, Mississippi (the County) as a special purpose government entity under Mississippi Code Section 41-13-15. The Hospital is owned by the County and per Mississippi statute is governed by a Board of Trustees appointed by the County Board of Supervisors. The Hospital is a component unit of Forrest County, Mississippi, as defined by Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34*. The Hospital's component unit relationship to the County is principally due to the Hospital's financial accountability to the County as defined in GASB Statement No. 61.

In addition to the Hattiesburg, Mississippi campus, the Hospital also operates the following locations:

- Highland Community Hospital (HCH), an acute care hospital located in Picayune, Mississippi, over which the Hospital obtained control on May 1, 2006;
- Walthall General Hospital (WGH), a critical access hospital located in Tylertown, Mississippi, over which the Hospital obtained control on October 1, 2010;
- Jefferson Davis General Hospital (JDGH), a critical access hospital located in Prentiss, Mississippi, over which the Hospital obtained control on July 1, 2011; and
- Marion General Hospital (MGH), a hospital located in Columbia, Mississippi, over which the Hospital obtained control on January 1, 2012.

The accompanying financial statements also include entities that are blended component units of the Hospital as defined by GASB Statement No. 61. Those entities are:

- AAA Ambulance Service, Inc. (AAA), a provider of medical and emergency transportation services;
- Forrest General Healthcare Foundation, Inc. (the Foundation), which raises funds for the benefit of the Hospital;
- South Mississippi Health Services, Inc., a property management organization;
- Forrest General Health Services, Inc., a management and consulting organization;
- Clean Earth, Inc., a waste removal organization;
- Forrest General Managed Care Services, Inc., which owns a physical hospital organization and managed care contracting entity; and
- Forrest General Occupational Medicine Services, Inc., which owns an occupational medicine provider.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

On August 1, 2015, the Hospital acquired the membership interest in Pointe Properties, LLC, an entity that owned the building in which the Hospital operated its Orthopedic Institute through a capital lease. The membership interest was acquired through the assumption of debt and a cash transfer.

All entities have the same fiscal year as the Hospital. All entities have been, with the exception of the Foundation, presented as a blended component unit because the Hospital is the sole corporate member of the entity or the entities are operated by the same, or substantially the same, governing board as the Hospital and management of the Hospital has operational responsibility of the entities. The Foundation has been presented as a blended component unit because it is operated for the primary benefit of the Hospital. AAA issues separate audited financial statements, which can be obtained by writing to AAA Ambulance Service, Inc., 214 South 28th Avenue, Hattiesburg, Mississippi 39401, or calling (601) 264-5211. The Foundation also issues separate financial statements, which can be obtained from the Hospital's management.

Basis of Accounting and Presentation

The financial statements of the Hospital have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated nonexchange transactions (principally federal and state grants) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated nonexchange transactions that are not program specific, property taxes, investment income and interest on capital assets-related debt are included in nonoperating revenues and expenses. The Hospital first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Forrest County General Hospital **(A Component Unit of Forrest County, Mississippi)**

Notes to Financial Statements **September 30, 2016 and 2015**

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, funds held in interest and noninterest-bearing checking accounts and all highly liquid investments with maturities at the time of purchase of three months or less.

Supplies

Supply inventories are stated at the lower of cost, determined using the first-in, first-out method or market.

Risk Management

The Hospital is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than medical malpractice at the Hospital's main and HCH campuses, workers' compensation at the Hospital's main campus and employee health claims. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Hospital is self-insured for a portion of its exposure to risk of loss from medical malpractice, workers' compensation and employee health claims. Annual estimated provisions are accrued for the self-insured portion of these risks, which include an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

Patient Accounts Receivable

The Hospital reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The Hospital provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

Designated Funds and Funds Held by Trustees

Designated funds and funds held by trustees include: (1) assets set aside by the Board of Trustees (currently for future plant replacement and expansion and deferred compensation arrangements) over which the Board retains control and may, at its discretion, subsequently use for other purposes, (2) assets held by trustee under the self-insurance trust agreement and (3) assets held by trustee under the terms of a deferred fee agreement with Hattiesburg Clinic Professional Association.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Investments and Investment Income

Investments in U.S. Treasury, agency and instrumentality obligations with a remaining maturity of one-year or less at time of acquisition and in nonnegotiable certificates of deposit are carried at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market prices.

Investment income includes dividend and interest income, realized gains and losses on investments carried at other than fair value and the net change for the year in the fair value of investments carried at fair value.

Capital Assets

Capital assets are recorded at cost, if purchased or, if donated, at acquisition value at the date of receipt. Depreciation is provided over the estimated useful life of each class of depreciable asset using the straight-line method. Capital assets under capital lease obligations are amortized using the straight-line method over the shorter of the lease term, or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization expense in the accompanying financial statements. Major renewals and betterments are capitalized. Costs for repairs and maintenance are expensed when incurred. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and the gain or loss, if any, is included in nonoperating revenues (expenses) in the accompanying statements of revenues, expenses and changes in net position.

All capital assets other than land are depreciated or amortized (in the case of capital leases) using these asset lives:

Land improvements	10 – 20 years
Leasehold improvements	3 – 20 years
Buildings	10 – 40 years
Fixed equipment	5 – 20 years
Movable equipment	3 – 7 years
Automotive equipment	3 – 5 years

The Hospital recognizes the impairment of capital assets when events or changes in circumstances suggest that the service utility of the capital asset may have significantly and unexpectedly declined. If such assets are no longer used, they are reported at the lower of carrying value or fair value. If such assets will continue to be used, the impairment loss is measured using the method that best reflects the diminished utility of the capital assets. The restoration or replacement of an impaired capital asset is reported as a separate transaction from any associated insurance recovery. The impairment loss is reported net of the associated realized or realizable insurance recovery

Forrest County General Hospital **(A Component Unit of Forrest County, Mississippi)**

Notes to Financial Statements **September 30, 2016 and 2015**

when the recovery and loss occur in the same year. Insurance recoveries reported in subsequent years are reported as other nonoperating revenue.

Compensated Absences

The Hospital's employees accumulate vacation, holiday and sick leave at varying rates depending upon their years of continuous service and their payroll classification, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation and holiday time at their regular rate of pay up to a designated maximum number of days. Since the employees' vacation and holiday time both accumulate and vest, an accrual for this liability, plus an additional amount for compensation-related payments such as social security and Medicare taxes, are included in salaries and wages payable in the accompanying balance sheets.

Deferred Outflows/Inflows of Resources

Transactions not meeting the definition of an asset or liability that result in the consumption or acquisition of net position in one period that are applicable to future periods are reported as deferred outflows of resources and deferred inflows of resources. At September 30, 2016 and 2015, deferred outflows of resources was comprised of approximately \$3,746,000 and \$4,250,000, respectively, related to a swap termination (*Note 4*) and \$13,279,000 and \$3,607,000, respectively, related to the pension plan (*Note 11*). At September 30, 2016 and 2015, deferred inflows of resources was comprised of approximately \$3,195,000 and \$3,625,000, respectively, related to a gain on debt refunding (*Note 4*) and \$94,000 and \$1,561,000, respectively, related to the pension plan (*Note 11*).

Net Patient Service Revenue

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations.

Charity Care

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Restricted Resources

When the Hospital has both restricted and unrestricted resources available to finance a particular program, it is the Hospital's policy to use restricted resources before unrestricted resources.

Net Position

The Hospital's net position is classified into the components as shown below:

- Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by outstanding balances of any borrowings used to finance the purchase or construction of those assets and any unpaid capital asset related invoices.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

The Hospital had no material restricted net position at September 30, 2016 or 2015.

Electronic Health Records Incentive Program

The Electronic Health Records Incentive Program, enacted as part of the American Recovery and Reinvestment Act of 2009, provides for one time incentive payments under both the Medicare and Medicaid programs to eligible hospitals that demonstrate meaningful use of certified electronic health records (EHR) technology. For hospitals paid under the prospective payment system, payments under the Medicare program are generally made for up to four years based on a statutory formula. Critical access hospitals are eligible to receive incentive payments for up to four years under the Medicare program for its reasonable costs of the purchase of certified EHR technology multiplied by the hospital's Medicare utilization plus 20%, limited to 100% of the costs incurred. Payments under the Medicaid program are generally made for up to four years based upon a statutory formula, as determined by the state, which is approved by the Centers for Medicare and Medicaid Services (CMS). Payments under both programs are contingent on the Hospital continuing to meet escalating meaningful use criteria and any other specific requirements that are applicable for the reporting period.

The Hospital recognizes revenue under the grant accounting model using the cliff recognition approach for its hospitals paid under the prospective payment system. Under this approach, revenue is recognized once meaningful use status has been met for the full reporting period. For its critical access hospitals, the Hospital recognizes revenue over the life of the EHR asset once meaningful use requirements have been achieved.

The Hospital recognized revenue from these programs of approximately \$2,976,000 and \$2,910,000 for the years ended September 30, 2016 and 2015, respectively. This revenue is included as a component of other operating revenue in the accompanying statements of revenues, expenses and changes in net position.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

The final amount for any payment year is determined based upon an audit by the administrative contractor. Events could occur that would cause the final amounts to differ materially from the initial payments under the program.

Income Taxes

The Hospital is classified as a governmental entity under the laws of Mississippi and is exempt from income taxes, but also carries an exemption from income taxes under Internal Revenue Code Section 501(c)(3). South Mississippi Health Services, Inc., Forrest General Health Services, Inc., Forrest General Healthcare Foundation, Inc. and AAA Ambulance Service, Inc. are tax-exempt organizations under Section 501(a) of the Internal Revenue Code as organizations described in Section 501(c)(3), whereby only unrelated business income is taxable. Forrest General Managed Care Services, Inc. and Forrest General Occupational Medicine Services, Inc. are nonprofit organizations subject to tax. Clean Earth, Inc. is subject to federal and state income taxes. Income taxes related to unrelated business income and the taxable entities are not significant to the Hospital.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Forrest County General Hospital Pension Plan (the Plan) and additions to and deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Reclassifications

Certain reclassifications have been made to the 2015 financial statements to conform to the 2016 presentation. The reclassifications had no effect on the changes in financial position.

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

**Notes to Financial Statements
September 30, 2016 and 2015**

Note 2: Deposits, Investments and Investment Income

The Hospital's deposits and investments are summarized below as of September 30, 2016 and 2015:

	2016	2015
Cash and cash equivalents	\$ 124,852,185	\$ 103,442,415

Pooled investment securities	85,560,039	83,716,827
	234,879,560	223,786,750
	\$ 359,731,745	\$ 327,229,165

The Hospital is required to provide additional disclosures of investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk associated with cash deposits and investments. These disclosures are reflected below.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization (NRSRO). The Hospital's investment policy, which conforms to Mississippi state law, does not specifically limit investment in securities based on an NRSRO credit rating, but the policy does designate authorized investments by type. These authorized investments, within established guidelines, are limited to securities of the U.S. government or its agencies, U.S. government obligations, U.S. and Mississippi municipal bonds, interest-bearing accounts and certificates of deposits of financial institutions, open-end or closed-end management type investment company or investment trust and an investment trust consisting of pooled or commingled funds of other hospitals.

Unless there is information to the contrary, obligations of the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

A summary of cash and investments is as follows:

September 30, 2016	Fair Value	Percentage	Credit Rating
Cash and cash equivalents, operating funds	\$ 124,852,185	34.71%	Exempt from disclosure
Cash and cash equivalents, designated and held by trustee	6,546,222	1.82%	Exempt from disclosure

Pooled investment securities	<u>85,560,039</u>	<u>23.78%</u>	**
Total cash and investments	<u>\$ 359,731,745</u>	<u>100.00%</u>	

September 30, 2015	Fair Value	Percentage	Credit Rating
Cash and cash equivalents, operating funds	\$ 103,442,415	31.61%	Exempt from disclosure
Cash and cash equivalents, designated and held by trustee	27,208,454	8.31%	Exempt from disclosure
Money market mutual funds	6,878,695	2.10%	Aaa
U.S. agency securities	19,880,362	6.08%	Exempt from disclosure
State municipal securities	3,193,459	0.98%	Exempt from disclosure
Open-end mutual funds	47,847,488	14.62%	*
Corporate debt securities	35,061,465	10.71%	Aaa - Baa1
Pooled investment securities	<u>83,716,827</u>	<u>25.58%</u>	**
Total cash and investments	<u>\$ 327,229,165</u>	<u>100.00%</u>	

* The open-end mutual funds primarily represent funds that the Hospital holds on behalf of Hattiesburg Clinic Professional Association (HCPA) for certain deferred fees as part of a 457(f) plan. The Hospital does not make investment decisions on these funds, and the entirety of the funds are due to HCPA. Mutual funds included in board designated accounts totaled \$3,274,762 and \$2,522,623 at September 30, 2016 and 2015, respectively.

** The pooled investment securities represent the Hospital's investment in the Mississippi Hospital Association investment pool. Although open to all hospitals, the pool is structured to comply with the provisions of Section 27-105-365 of the Mississippi Code Annotated (1972), which establishes guidelines for depository and investment activity for all county and municipal hospital funds. Accordingly, the pooled investment securities are limited to U.S. government and agencies, certain investment and trust funds and commercial paper, corporate notes and bonds that have an "A" rating or better.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Concentration of Credit Risk

The Hospital's investment policy, in accordance with state statute, restricts investments in U.S. agencies to 50% of total investments. Investments in open-end and closed-end management type investment companies and investment trusts are limited to 20% of total investments.

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer (an investment that represents more than 5% of the market value of the total investment portfolio). At September 30, 2016, approximately 6% and 9% of the Hospital's investment portfolio concentrations (exclusive of funds held for HCPA or designated for deferred compensation arrangements) was invested in bonds of the Federal Home Loan Bank and State of Mississippi, respectively. At September 30, 2015, approximately 8% of the Hospital's investment portfolio concentrations (exclusive of funds held for HCPA or designated for deferred compensation arrangements) was invested in bonds of the Federal Home Loan Bank.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Hospital will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Hospital will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

The Hospital's formal investment policy is governed by and in conformity with Section 27-105-365 of the Mississippi Code Annotated (1972), which establishes guidelines for depository and investment activity:

- In accordance with statutes of the state of Mississippi, the Hospital maintains its deposits at financial institutions authorized by the Board of Trustees.
- The collateral for public entity deposits in financial institutions is held in the name of the State Treasurer of Mississippi under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 of the Mississippi Code Annotated (1972). Under this program, the Hospital's funds are protected through a collateral pool administered by the State Treasurer.
- Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits.
- In the event of a financial institution's failure, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Commission (FDIC).

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements

September 30, 2016 and 2015

Investments in external investment pools and in open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. At September 30, 2016 and 2015, deposits and investments requiring custodial credit risk disclosure totaled approximately \$173,107,000 and \$116,079,000, respectively, all of which were insured or collateralized in accordance with state statute.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates and will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates.

Interest rate risk inherent in the portfolio is measured by monitoring the segmented time distribution of the investments in the portfolio.

The following is a summary of the Hospital's segmented time distribution investment maturities in years by investment type as of September 30, 2016 and 2015.

September 30, 2016	Fair Value	Years			
		< 1	1 – 5	6 – 10	More than 10
U.S. agency securities	\$ 25,085,326	\$ 1,700,579	\$ 15,868,830	\$ 7,515,917	\$ -
U.S. Treasury securities	2,485,241	-	2,485,241	-	-

The Hospital holds investments on behalf of HCPA related to certain fees paid to HCPA and its members that are deferred according to the terms of a deferred fee agreement, as amended April 1, 2005. The investments are held under a deferred fee trust agreement (trust agreement) dated April 1, 2005. Fidelity Management Trust Company is the trustee under an agreement with the Hospital and HCPA. The deferred compensation plan was established as a 457(f) plan.

The intent of the deferred fee agreement is to provide for the deferred payment by the Hospital to HCPA of certain fees earned by HCPA for services rendered to the Hospital and to be the nonprofit

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements

September 30, 2016 and 2015

vehicle through which related investments are held on behalf of HCPA. The Hospital is liable to HCPA for the entirety of the investment.

The Hospital makes no management decisions on how and where the funds are invested. HCPA directs the Hospital as to how deferral amounts are to be invested. The corpus and income of the grantor trust are considered to be owned by the Hospital for income tax purposes through the 457(f) plan. In all other respects, the corpus and income of the grantor trust are considered by the Hospital to be fully due to HCPA.

The Hospital only funds the amount of deferred fees as determined by HCPA. The only participants in the 457(f) plan are HCPA employees. Hospital employees do not participate in the 457(f) plan. As noted previously, the Hospital holds these investments with Fidelity Management Trust Company under the trust agreement. The types of investments are:

- Money market mutual funds
- Fixed income mutual funds
- Equity mutual funds

Currently, the amount of the deferred fees that the Hospital deposits on behalf of HCPA in the trust account for the deferred compensation plan is \$217,684 per month. Periodically, usually in January, HCPA notifies the Hospital of the deferral amount based on the enrollment of HCPA physicians. In 2016, this amount was modified by notification from HCPA.

At September 30, 2016 and 2015, the fair value of the assets held under the trust agreement for the 457(f) plan and the corresponding liability was approximately \$56,817,000 and \$50,311,000, respectively. The amounts have been reflected on the accompanying balance sheets.

Investment Income

Investment income for the years ended September 30, 2016 and 2015 consisted of:

	2016	2015
Interest and dividend income	\$ 4,447,576	\$ 3,511,095
Realized gains and losses on investments	(626,068)	452,828
Unrealized gains on investments	980,212	387,667
	\$ 4,801,720	\$ 4,351,590

Revenue Bonds Payable, Revenue Funding Bond and Promissory Note

- (A) Series 2009 Revenue Refunding Bonds, bearing interest at 5.25%; collateralized by Hospital revenues; due on January 1, 2030.
- (B) Promissory note, bearing interest at 4.35%; collateralized by various real property; due on September 15, 2017.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Notes to Financial Statements
September 30, 2016 and 2015

- (C) Series 2010 Build America Revenue Bonds; bearing interest at 7.265% to 7.390%; collateralized by Hospital revenue; due on January 1, 2040.
- (D) Promissory note, bearing interest at 3.66%; collateralized by various real property; due on November 15, 2018.
- (E) Promissory note, bearing interest at 1.66% below prime rate as published in *The Wall Street Journal* (currently 1.59%); collateralized by various equipment; due from October 10, 2012 to September 20, 2017.
- (F) Note payable to vendor for software; due in equal monthly installments of \$153,088, including interest at a rate of 0% through February 1, 2015.
- (G) Promissory note dated December 28, 2010, bearing interest at 4.91%; collateralized by real property; due from February 5, 2018 to January 5, 2036. On the 10th and 20th anniversary of the note, the interest rate will adjust to a rate that is based on a U.S. Treasury rate plus a fixed percentage.
- (H) Promissory note, bearing interest at 1.00%; collateralized by real property; due from February 5, 2018 to January 5, 2036.
- (I) Promissory note dated December 28, 2010, bearing interest at 4.91%; collateralized by real property; due from February 5, 2018 to January 5, 2036. On the 10th and 20th anniversary of the note, the interest rate will adjust to a rate that is based on a U.S. Treasury rate plus a fixed percentage.
- (J) Promissory note, bearing interest at 1.00%; collateralized by real property; due from February 5, 2018 to January 5, 2036.
- (K) Series 2010B Gulf Opportunity Zone Revenue Bond, bearing interest at 5.05%; collateralized by real property; due from January 15, 2013 to December 15, 2017.
- (L) Promissory note, bearing interest at 0%; collateralized by equipment; due July 1, 2017.
- (M) Note payable to vendor for equipment, due in equal annual installments of \$206,736; which includes an interest rate of 11% through November 1, 2020.

Promissory notes G through J and the Series 2010B Gulf Opportunity Zone Revenue Bond were assumed through the acquisition of Pointe Properties, LLC, discussed in *Note 1*. This debt was originally issued as part of an integrated financing structure developed under the New Market Tax Credit (NMTC) program pursuant to Section 45D of the Internal Revenue Code and the regulations, compliance and reporting requirements thereunder.

In January 2018, through the NMTC structure, the holder of Notes H and J has the ability to effectively put its interest in the notes to the Hospital who will have the ability to forgive the debt.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

On September 20, 2012, the Hospital issued a promissory note in the amount of \$20,000,000 to BancorpSouth. The note proceeds were used to fund facility capital equipment purchases.

On November 17, 2010, the Hospital issued \$70,000,000 of fixed rate revenue bonds (the Series 2010 Bonds) through Mississippi Hospital Equipment and Facilities Authority (MHEFA). The Series 2010 Bond proceeds were used to fund campus renovations and equipment purchases, as well as construction of a replacement hospital facility for Highland Community Hospital in Picayune, Mississippi. The Series 2010 Bonds may be redeemed at the option of the Hospital on any date on or after January 1, 2020, at a redemption price of par plus accrued interest to the redemption date.

The Series 2010 Bonds were issued as Direct Payment Build America Bonds (BABs) for the purposes of the American Recovery and Reinvestment Act of 2009 (the Act), and the Hospital expects to receive a cash subsidy payment from the United States Treasury pursuant to the Act equal to 35% of the interest payable on the Series 2010 Bonds on or about each interest payment date. As a result of the federal sequestration, the cash subsidy has been reduced by approximately 5.1% for 2016 and 2015.

On November 18, 2010, AAA Ambulance Service, Inc. issued a promissory note in the amount of \$735,000 through BancorpSouth. The note proceeds were used to fund facility construction for AAA Ambulance Service, Inc.

On October 15, 2009, the Hospital issued \$43,670,000 of fixed rate revenue refunding bonds (the Series 2009 Bonds) through MHEFA. The Series 2009 Bond proceeds were used to refund all amounts outstanding under the Series 2007A variable rate revenue bonds (Series 2007A Bonds) and included a premium of \$2,283,000. The owner of the Series 2007A Bonds agreed to accept \$37,528,000 for settlement of the outstanding bonds with a par amount of \$45,555,000. The economic gain (generally defined as the present value of the net cash flow differential discounted at the effective interest rate of the new debt) on the refunding transaction totaled approximately \$6,250,000. The Series 2009 Bonds may be redeemed at the option of the Hospital on any date on or after January 1, 2020, at a redemption price of par plus accrued interest to the redemption date. The Hospital recognized a gain on the refunding of the Series 2007A Bonds, which is being recognized over the term of the Series 2009 Bonds. The unamortized gain was \$3,194,630 and \$3,625,310 at September 30, 2016 and 2015, respectively, and is included in the balance sheets as a deferred inflow of resources.

Upon the issuance of the Series 2009 Bonds, there was also a termination of a cost of funds swap (Note 7). The termination payment of \$7,690,000 has been deferred and is being amortized over the term of the Series 2009 Bonds. The unamortized loss on the swap termination was \$3,745,491 and \$4,250,433 at September 30, 2016 and 2015, respectively, and is included in the balance sheets as a deferred outflow of resources.

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

**Notes to Financial Statements
September 30, 2016 and 2015**

The loan agreements for the Series 2010 Bonds and Series 2009 Bonds contain certain terms and restrictive covenants typical of such agreements, including maintenance of certain debt service coverage and liquidity levels and limitations on additional indebtedness.

Debt service requirements associated with the Hospital's long-term debt are shown below. Interest payments included in this table do not include the interest subsidy from the BABs discussed previously.

<u>Years Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 6,816,148	\$ 8,260,532	\$ 15,076,680
2018	3,078,210	8,061,082	11,139,292
2019	3,757,763	7,903,569	11,661,332
2020	3,496,717	7,750,154	11,246,871
2021	3,660,457	7,588,891	11,249,348
2022 - 2026	19,736,080	35,140,695	54,876,775
2027 - 2031	31,030,579	28,793,711	59,824,290
2032 - 2036	39,585,053	16,997,670	56,582,723
2037 - 2040	29,350,000	3,900,996	33,250,996
	<u>\$ 140,511,007</u>	<u>\$ 124,397,300</u>	<u>\$ 264,908,307</u>

Note 5: Capital Leases

During 2012, the Hospital entered into the capital lease of a parking facility on the main campus in Hattiesburg with Eagle Parking & Development, LLC. A summary of the obligation follows.

<u>Eagle Parking & Development, LLC</u>	<u>Monthly Payment</u>	<u>Interest</u>	<u>Final Payment</u>
1 year	\$ 133,634	5.91%	June 2013
2 - 7 years	131,403	5.91%	June 2019
8 - 15 years	116,630	5.91%	June 2027

During 2012, the Hospital entered into the capital lease of a facility which houses the Orthopedic Institute, a freestanding inpatient orthopedic hospital and surgery facility in Hattiesburg, Mississippi, with Pointe Properties, LLC. As discussed in *Note 1*, during 2015, the Hospital acquired the membership interest in Pointe Properties, LLC and removed the capital lease obligation and related leased asset upon acquisition.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

During 2009, the Hospital entered into a capital lease of a building with Twenty-Eighth Place, LLC, which houses various administrative and support departments of the Hospital. A summary of the obligation follows.

Twenty-Eighth Place, LLC	Monthly Payment	Interest	Final Payment
1 - 5 years	\$ 113,580	5.85%	February 2013
6 - 10 years	124,938	5.85%	February 2018
11 - 15 years	137,432	5.85%	February 2023
16 - 20 years	151,175	5.85%	February 2028

The Hospital's scheduled payments on capital lease obligations follow:

	Principal	Interest	Total
2017	\$ 1,616,800	\$ 1,459,277	\$ 3,076,077
2018	1,803,693	1,360,244	3,163,937
2019	1,933,023	1,248,681	3,181,704
2020	1,912,188	1,136,555	3,048,743
2021	2,027,676	1,021,067	3,048,743
2022 - 2026	12,785,820	3,048,854	15,834,674
2027 - 2028	3,484,902	134,748	3,619,650
	<u>\$ 25,564,102</u>	<u>\$ 9,409,426</u>	<u>\$ 34,973,528</u>

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Notes to Financial Statements
September 30, 2016 and 2015

A schedule of changes in the Hospital's capital lease obligation balances for 2016 and 2015 follows.

Description	Interest Rate	Date of Issuance/ Assumption	Balance October 1, 2015	Additions	Payments/ Adjustments	Balance September 30, 2016	Due Within One Year
Parking garage	5.91%	July 2012	\$ 12,430,511	\$ -	\$ 865,027	\$ 11,565,484	\$ 917,917
Support services building	5.85%	March 2008	14,657,883	-	659,265	13,998,618	698,883
			<u>\$ 27,088,394</u>	<u>\$ -</u>	<u>\$ 1,524,292</u>	<u>\$ 25,564,102</u>	<u>\$ 1,616,800</u>

Description	Interest Rate	Date of Issuance/ Assumption	Balance October 1, 2014	Additions	Payments	Balance September 30, 2015	Due Within One Year
Parking garage	5.91%	July 2012	\$ 13,246,353	\$ -	\$ 815,842	\$ 12,430,511	\$ 865,387
Orthopedic hospital	7.81%	August 2012	31,089,833	-	31,089,833	-	-
Support services building	5.85%	March 2008	15,279,775	-	621,892	14,657,883	659,265
			<u>\$ 59,615,961</u>	<u>\$ -</u>	<u>\$ 32,527,567</u>	<u>\$ 27,088,394</u>	<u>\$ 1,524,652</u>

As previously discussed, in 2015, the Hospital acquired the company that held the orthopedic hospital capital lease and removed the capital lease obligation as a result.

Capital assets totaling approximately \$33,888,000 at both September 30, 2016 and 2015, are related to the above capital lease obligations. Related accumulated amortization was approximately \$12,228,000 and \$10,269,000 at September 30, 2016 and 2015, respectively.

Note 6: Other Accrued Expenses

Other accrued expenses consist of the following:

	<u>2016</u>	<u>2015</u>
Patient credit balances	\$ 6,091,353	\$ 5,044,703
Reserve for incurred but not reported employee health claims	1,575,000	2,105,000
Workers' compensation and professional liability reserves	347,700	480,000
Advanced revenue	955,665	2,353,549
Accrued interest expense	1,986,978	1,927,115
Construction retainage	598,522	56,717
Other	2,570,467	1,633,683
	<u>\$ 14,125,685</u>	<u>\$ 13,600,767</u>

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements

September 30, 2016 and 2015

Note 7: Interest Rate Swap Agreements

Accounting principles generally accepted in the United States of America (GAAP) require the Hospital to recognize the fair value of a derivative instrument on its balance sheets. The change in fair value is either recorded as a deferred amount on the Hospital's balance sheets (if the derivative agreement qualifies for hedge accounting) or as a component of investment income on the accompanying statements of revenues, expenses and changes in net position.

The Hospital entered into two interest rate swap agreements in June 2007. The Hospital accounted for a cost of funds swap as a hedging derivative instrument and accounts for a basis swap as an investment derivative. The terms of the swaps are more fully described below.

The changes in fair value of the basis swap is shown in the following table.

	Basis Swap
Fair value, September 30, 2014	\$ (551,739)
Change in fair value	655,194
Fair value, September 30, 2015	103,455
Change in fair value	(182,511)
Fair value, September 30, 2016	\$ (79,056)

The cost of funds swap was terminated in conjunction with the issuance of the Series 2009 Bonds. The termination payment of \$7,690,000 has been deferred and is being amortized as discussed in *Note 4*. At September 30, 2016 and 2015, only the basis swap remained in effect.

The fair value of the basis swap was estimated by the counterparty, which uses a proprietary pricing model to compute the fair value.

- **Objective of the Interest Rate Swaps** – While the Hospital's long-term debt at September 30, 2016 and 2015, is a fixed rate, the Hospital's asset/liability strategy in the past has included a mixture of fixed and variable rate debt to take advantage of market fluctuations. As a strategy to maintain acceptable levels of exposure to the risk of changes in future cash flows due to interest rate fluctuations and to lower its borrowing costs when compared against fixed rate debt at the time of issuance, the Hospital utilized two interest rate swap agreements to convert its variable rate debt exposure to a fixed rate for the retired Series 2007A revenue bonds. The intention of the terminated cost of funds swap was to effectively change the Hospital's variable interest rate on this note to a synthetic fixed rate of 5.02%. The intention of the basis swap was to provide additional interest rate savings over time.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

- **Terms** – The basis swap agreement matures on January 1, 2030. The basis swap includes an amortizing notional amount through January 1, 2030. The notional amount was \$37,455,000 and \$39,275,000 at September 30, 2016 and 2015, respectively. The swaps were entered into at the same time the bonds were issued (June 2007). The swaps were comprised of the cost of funds swap, which was terminated in the 2009 refunding issue and a basis swap. Under the basis swap, the Hospital pays the counterparty a variable payment computed at the Securities Industry and Financial Market Association (SIFMA) Swap Index and receives a variable payment computed as 67% of one-month LIBOR plus 24 basis points.
- **Credit Risk** – The Hospital is exposed to credit risk on the amount of the derivative's fair value. The swap's counterparty was rated A by Standard and Poor's and A+ by Fitch as of September 30, 2016.
- **Interest Rate Risk** – The cost of funds swap exposed the Hospital to interest rate risk prior to its termination. As LIBOR increased, the aggregate payments under the swap increased. However, the interest payments on the hedged 2007 revenue bonds also decreased by a corresponding amount.
- **Basis Risk** – The Hospital is exposed to basis risk on the basis swap because the variable rate payments received by the Hospital are based on a different index than the benchmark interest rate used to determine the Hospital's payments on the swap. As of September 30, 2016, the SIFMA rate, which is paid to the counterparty by the Hospital, was 0.29%, whereas 67.00% of one-month LIBOR plus 24 basis points (which is received by the Hospital) was 0.59%.
- **Termination Risk** – The derivative contracts use the International Swaps and Derivatives Association, Inc. Master Agreement, which includes standard termination events, such as failure to pay, failure to perform under the terms of the contract and bankruptcy. The swaps may be terminated by the Hospital if the counterparty's credit quality rating falls below a rating "Baa3" by Moody's Investors Service or "BBB" by Standard & Poor's. If, at the time of termination, the basis swap has a negative fair value, the Hospital would be liable to the counterparty for a payment equal to the swap's fair value.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements

September 30, 2016 and 2015

- **Swap Payments** – Using rates as of September 30, 2016, future net receipts under the basis swap are as follows:

2017	\$	203,617
2018		191,700
2019		179,170
2020		165,989
2021		152,105
2022 - 2026		529,871
2027 - 2030		106,357
		1,528,809
	\$	1,528,809

As rates fluctuate, payments under the basis swap will vary.

Note 8: Operating Leases

The Hospital, as a lessee, leases certain property from other outside parties. Rent expense under all operating leases was approximately \$9,410,000 and \$9,368,000 in 2016 and 2015, respectively.

Note 9: Net Patient Service Revenue

The Hospital has agreements with governmental and other third-party payers that provide for reimbursement to the Hospital at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Hospital's billings at established rates for services and amounts reimbursed by third-party payers. A summary of the basis for reimbursement with major third-party payers follows.

- **Medicare** – Substantially all acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic and other factors. Certain other Medicare reimbursement items are paid based on other retroactive-determination methodologies. WGH and JDGH are classified as critical access hospitals and are reimbursed based on the reasonable costs of providing care to Medicare program beneficiaries. MGH is not classified as a critical access hospital, but is receiving payments based on reasonable costs through the Rural Community Hospital Demonstration Project. The demonstration project ends on October 1, 2016. The Hospital is reimbursed for retroactively determined items at tentative rates, with final settlement determined after submission of annual cost reports by the Hospital and audits by the Medicare fiscal intermediary.

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Revenue from the Medicare program accounted for approximately 42% and 45% of the Hospital's net patient service revenue for the years ended September 30, 2016 and 2015, respectively.

- **Medicaid** – Inpatient and certain outpatient services rendered to Medicaid program beneficiaries are generally paid based upon prospective reimbursement methodologies established by the state of Mississippi. The Hospital is reimbursed for retroactively determined items at tentative rates, with final settlement determined after submission of annual cost reports by the Hospital and audits by the state of Mississippi Medicaid Program. Medicaid changed its reimbursement methodology for inpatient services beginning October 1, 2012, to a prospective-payment system based on All Patient Refined Diagnosis Related Groups (APR-DRG). For outpatient services beginning September 1, 2012, the methodology was changed to Ambulatory Payment Classification (APC), similar to the Medicare payment model.

Revenue from the Medicaid program accounted for approximately 22% and 25% of the Hospital's net patient service revenue for the years ended September 30, 2016 and 2015, respectively. This includes revenue from the programs described below.

Prior to July 1, 2015, the state of Mississippi operated the Medicaid Upper Payment Limit (UPL) program for providers participating in the state Medicaid program. The net benefit for the Hospital associated with the UPL program totaled approximately \$16,787,000 for the year ended September 30, 2015, and is recognized as net patient service revenue in the accompanying statements of revenues, expenses and changes in net position.

Beginning July 1, 2015, UPL payments were phased out and the Division of Medicaid (DOM) implemented the Mississippi Hospital Access Payment (MHAP) program in its place. The program will be administered by DOM through the Mississippi CAN coordinated care organizations (CCO). The CCOs will subcontract with hospitals throughout the state for distribution of the MHAP for the purpose of protecting patient access to hospital care. The MHAP program began on December 1, 2015, and was approved for state fiscal year 2016 by CMS in March 2016. The net benefit for the Hospital associated with the MHAP program is \$21,296,000 for the year ended September 30, 2016.

The Hospital also participates in a voluntary disproportionate share program available to certain qualifying hospitals in the state Medicaid program. The net program benefit for the Hospital of approximately \$6,699,000 and \$8,566,000 for 2016 and 2015, respectively, is recognized as net patient service revenue in the accompanying statements of revenues, expenses and changes in net position. There can be no assurance that the Hospital will continue to qualify for future participation in this program or that the program will not ultimately be discontinued or materially modified.

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

**Notes to Financial Statements
September 30, 2016 and 2015**

The Hospital has received notices from DOM of audits of cost reports from prior years, which were used to set reimbursement rates in subsequent fiscal years. The Hospital has retained counsel and stated its opposition to the audit to DOM. The Hospital estimated and recorded a payable to reflect liability for related potential claims of approximately \$2,817,000 and \$4,130,000 as of September 30, 2016 and 2015, respectively.

The Medicaid programs described above are subject to review and scrutiny by both the Mississippi legislation and CMS, and the programs could be modified or terminated based on new legislation or regulation in future periods.

The Hospital has also entered into other reimbursement arrangements with third-party payers that provide for payments under various methodologies, including prospectively determined rates per discharge, per diem amounts and discounts from established charges.

The composition of net patient service revenue follows.

	2016	2015
Gross patient service revenue	\$ 1,722,575,443	\$ 1,607,943,596
Less provisions for		
Contractual, charity and other adjustments	(1,094,617,037)	(989,053,884)
Bad debts	(107,692,189)	(118,186,551)
Net patient service revenue	<u>\$ 520,266,217</u>	<u>\$ 500,703,161</u>

Note 10: Charity Care

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services and supplies and equivalent service statistics. The level of charity care provided for 2016 and 2015 is shown in the table below. The estimated cost to provide charity care is based on a ratio of overall operating expenses to gross patient service revenue applied to charges foregone under established rates.

	2016	2015
Charges foregone, based on established rates	\$ 27,646,912	\$ 26,188,280
Estimated costs and expenses incurred to provide charity care	7,986,300	7,745,611
Equivalent percentage of charity care patients to all patients served	1.60%	1.63%

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

Note 11: Pension Plans

Defined Contribution Pension Plan

The Hospital has a defined contribution pension plan that allows for employee and employer contributions. The plan was established on July 1, 2011, and only full-time employees hired after that date are eligible to receive Hospital contributions to the plan. Contributions actually made by plan members were approximately \$2,694,000 and \$1,990,000 during 2016 and 2015, respectively. The Hospital's outstanding liability was approximately \$1,010,000 and \$807,000 at September 30, 2016 and 2015, respectively. The Hospital's contributions are vested after five years of service. Forfeitures are used to offset future employer contributions. At September 30, 2016 and 2015, forfeitures were approximately \$186,000 and \$55,000, respectively.

Defined Benefit Pension Plan

The Hospital contributes to the Forrest County General Hospital Pension Plan (the Plan), a single-employer defined benefit pension plan, which was frozen effective July 1, 2011, thereby excluding new entrants into the Plan. The Plan's fiscal year ends June 30. Actuarial valuations are performed annually on July 1. The Plan is administered by the Hospital's Human Resources Support Department, whose work on the Plan is overseen by the Pension Committee of the Hospital's Board of Trustees. The Hospital retains Capital Research and Planning in an advisory capacity for the Plan's matters. The Plan issues a financial report available for all participants that includes financial statements and required supplementary information. The report may be obtained at www.mshospitaltransparency.com when issued or by writing the administration of the Hospital at P.O. Box 16389, Hattiesburg, Mississippi 39404 or calling (601) 288-7000.

Benefits Provided

The Plan provides retirement and disability benefits and death benefits to plan members and beneficiaries. Benefit provisions are established by the Hospital's Board of Trustees. Retirement benefits for employees are calculated at a 1.5% times average monthly compensation times years of service. Death benefits are equal to the single sum present value of the vested accrued benefit otherwise payable at the normal retirement date. Disability benefits are equal to the vested accrued benefit payable at normal retirement age or an actuarially reduced benefit paid immediately.

The terms of the Plan provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustments for cost-of-living are 2.5% per year.

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

Notes to Financial Statements

September 30, 2016 and 2015

The employees covered by the Plan at June 30, 2016 and 2015, follow:

	2016	2015
Active participants	1,416	1,551
Vested former employees	1,089	1,032
Retirees and beneficiaries	472	424
	<u>2,977</u>	<u>3,007</u>

Contributions

The Hospital's Board of Trustees has the authority to establish and amend the contribution requirements of the Hospital. The Board of Trustees establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Plan members are not required or permitted to contribute any portion of their salary to fund the Plan. The Hospital is required to contribute to the plan at actuarially determined rates at a percentage of annual covered payroll. For the plan years ended June 30, 2016 and 2015, the Hospital contributed \$10,063,476 and \$9,782,490 (or 12% of covered payroll in both years), respectively, to the Plan.

Net Pension Liability

The Hospital's net pension liability was measured as of June 30, 2016 and 2015, as reported as of September 30, 2016 and 2015, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016 and 2015, respectively.

The total pension liability in the June 30, 2016 and 2015, actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	2.0% - 4.5%, based on age, including inflation
Ad hoc cost of living adjustments	2.5% per year
Investment rate of return	7.25%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Mortality Table, projected to 2016 using scale AA.

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

**Notes to Financial Statements
September 30, 2016 and 2015**

The Hospital has not performed a recent experience study. Due to the frozen nature of the Plan, the benefits of an experience study are estimated by the actuary to be minimal.

The long-term expected rate of return on pension plan investments was based primarily on historical returns on plan assets, adjusted for changes in target portfolio allocations and recent changes in long-term interest rates based on publicly available information.

The target allocation and best estimates of rates of return for each major asset class are summarized in the following table.

Asset Class	Target Allocations			Tactical Asset Allocation Portfolio
	Tier One Near Term Sub Portfolio	Tier Two Mid Term Sub Portfolio	Tier Three Long-term Sub Portfolio	
Cash/fixed income	75.00%	30.00%	25.00%	57.45%
Equities	25.00%	70.00%	75.00%	42.55%
Total	100.00%	100.00%	100.00%	100.00%

Asset Class	Long-Term Expected Rate of Return (Arithmetic Mean)
Cash/fixed income	2.00%
Equities	7.00% - 8.00%
Closely held stock	4.50%

Discount Rate

The discount rate used to measure the total pension liability was 7.25% for both the years ended June 30, 2016 and 2015. The projection of cash flows used to determine the discount rate assumed that Hospital contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

Changes in the total pension liability, plan fiduciary net position and the net pension liability follow.

	2016		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance, beginning of year	\$ 182,575,415	\$ 134,753,017	\$ 47,822,398
Changes for the year

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

The net pension liability of the Hospital has been calculated using a discount rate of 7.25%. The following presents the net pension liability using a discount rate 1% higher and 1% lower than the current rate.

	1% Decrease	Current Discount Rate (7.25%)	1% Increase
Hospital's net pension liability	\$ 87,127,687	\$ 58,248,247	\$ 34,480,514

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the years ended September 30, 2016 and 2015, the Hospital recognized pension expense of \$9,350,122 and \$6,780,698, respectively. At September 30, 2016 and 2015, the Hospital reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,797,589	\$ 93,852
Net difference between projected and actual earnings on pension plan investments	8,965,782	-
Hospital's contributions made subsequent to the measurement date of the net pension liability	2,515,869	-
	\$ 13,279,240	\$ 93,852
	2015	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,091,162	\$ 125,136
Net difference between projected and actual earnings on pension plan investments	-	1,435,710
Hospital's contributions made subsequent to the measurement date of the net pension liability	2,515,869	-
	\$ 3,607,031	\$ 1,560,846

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

At both September 30, 2016 and 2015, the Hospital reported \$2,515,869 as deferred outflows of resources related to pensions resulting from Hospital contributions subsequent to the measurement date and prior to year-end that will be recognized as a reduction of the net pension liability in future periods. Other amounts reported as deferred outflows of resources and deferred inflows of resources at September 30, 2016, related to pensions will be recognized in pension expense as follows:

2017		\$	2,161,058
2018			2,161,059
2019			3,566,111
2020			2,781,291
			2,781,291
		\$	10,669,519

Note 12: Postemployment Health Care Plan

The Hospital contributes to the Forrest County General Hospital Employee Health Benefit Plan (the Health Plan), a single-employer, defined benefit post-retirement health care plan sponsored and administered by the Hospital. The Health Plan provides medical and drug benefits to eligible retirees and their dependents. The Hospital’s Board of Trustees is authorized to establish and amend all provisions of the Health Plan. The Hospital does not issue a publicly available financial report that includes financial statements and required supplementary information for the Health Plan.

Funding Policy

The contribution requirements of plan members and the Hospital are established and may be amended by the Hospital’s Board of Trustees. Monthly contributions are required by retirees who are eligible for coverage. The Hospital pays for costs in excess of required retiree contributions. For fiscal years 2016 and 2015, the Hospital contributed approximately \$600,000 and \$577,000 to the Health Plan, which represented approximately 58% and 45% of total costs, respectively. The Health Plan retirees receiving benefits contributed approximately \$257,000 and \$194,000 in 2016 and 2015, respectively, through their required contributions. Monthly contributions required by retirees depend on the service period at time of retirement and the type of coverage (single or family). Employees are eligible to retire and receive medical benefits under the plan if their age plus years of service is greater than or equal to 70 (Rule of 70). Qualifying retirees may only participate in the medical plans offered to active employees until the earlier of age 65, or the date the retiree becomes Medicare eligible.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

The following table summarizes the monthly contribution rates for employees retiring on or after January 1, 2016.

Coverage Options	Plan A	Plan B	Plan C
Single	\$ 184	\$ 249	\$ 290
Retiree + 1 child	274	374	445
Retiree + 2 children	333	466	567
Retiree + spouse	321	427	528
Family	368	488	612

Only employees retiring before calendar year 2010 are eligible to receive the reduced retiree rates if they qualify under the Rule of 70. Effective January 1, 2010, only those employees age 59 or older with 30 years of service with the Hospital (the 59 and 30 eligibility requirement) will be offered health coverage at the reduced retiree rates. Retirees that do not meet the 59 and 30 eligibility requirement may participate in the Health Plan, but must pay the COBRA rate.

Annual OPEB Cost and Net OPEB Obligation

The Hospital's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of 30 years.

The following table shows the components of the Hospital's annual OPEB cost for the year, the amount actually contributed to the Health Plan and changes in the Hospital's net OPEB obligation.

	2016	2015
Annual required contribution and annual OPEB cost	\$ 1,040,039	\$ 1,281,340
Contributions made	(599,867)	(577,196)
Increase in net OPEB obligation	440,172	704,144
Net OPEB obligation, beginning of year	3,885,533	3,181,389
Net OPEB obligation, end of year	<u>\$ 4,325,705</u>	<u>\$ 3,885,533</u>

**Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)**

**Notes to Financial Statements
September 30, 2016 and 2015**

Three-year Trend Information

Fiscal Years Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2016	\$ 1,040,039	57.7%	\$ 4,325,705
2015	1,281,340	45.0%	3,885,533
2014	1,315,319	37.8%	3,181,389

Funded Status and Funding Progress

As of October 1, 2015, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for 2016 and 2015 for benefits was \$10,409,464 and \$14,386,780, respectively, resulting in an unfunded actuarial accrued liability (UAAL) of \$10,409,464 and \$14,386,780. The covered payroll (annual payroll of active employees covered by the plan) for 2016 and 2015 was \$113,192,167 and \$111,661,758, respectively, and the ratio of UAAL to covered payroll was 9.2% and 12.9%, respectively.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend.

Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress – postemployment health care plan, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the October 1, 2015 actuarial valuation, the entry age normal method was used. The actuarial assumptions included a 6.0% and 4.0% discount rate for 2016 and 2015, respectively, and an

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

annual health care cost trend rate of 8% in both 2016 and 2015, reduced 0.5% each year until it reaches a rate of 5.0%. The UAAL is being amortized over a 30-year period on the level percent of pay method on an annual basis.

Note 13: Concentrations of Credit Risk

The Hospital grants credit to patients, substantially all of whom are Hospital service area residents. The Hospital generally does not require collateral or other security in extending credit to patients; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans or policies (*e.g.*, Medicare, Medicaid, Blue Cross and commercial insurance policies).

For the years ended September 30, 2016 and 2015, admissions by physicians employed by a large, multi-specialty physician practice located adjacent to the Hospital accounted for approximately 75% and 70%, respectively, of the Hospital's gross revenues.

The mix of receivables from patients and third-party payers as of each fiscal year-end follows.

	2016		2015	
Medicare	\$ 32,038,518	23.9 %	\$ 44,696,472	33.6 %
Medicaid	9,350,695	6.9	9,470,935	7.1
Other third-party payers	38,820,063	28.8	24,702,680	18.6
Patients	54,382,497	40.4	54,243,818	40.7
	134,591,773	100.0	133,113,905	100.0
Less allowance for uncollectible accounts	81,139,104	60.3	80,685,084	60.6
	\$ 53,452,669	39.7 %	\$ 52,428,821	39.4 %

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

Note 14: Risk Management

Medical Malpractice and General Liability Risks

Annual estimated provisions are accrued for the self-insured portion of medical malpractice and general liability claims, including an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

Effective March 1, 2003, the Hospital became self-insured at its Hattiesburg campus for all medical malpractice claims incurred on or after that date. In accordance with the provisions of Title 11, Chapter 46 of the Mississippi Code, a trust fund was established based on an actuarially determined funding level. Effective July 1, 2001, Code 11-46-15 of the Mississippi Code established that the liability for public entities falling under the State Tort Act would not exceed \$500,000 for all single occurrence claims. Effective May 1, 2014, HCH became self-insured under the Hospital's self-insured program.

The following is a summary of changes in the Hospital's self-insurance liability for professional and general liability costs for fiscal 2016 and 2015.

	2016	2015
Balance, October 1	\$ 3,213,001	\$ 2,989,477
Provisions for claims reported and claims incurred but not reported	1,479,954	462,811
Claims and related expenses paid	(388,306)	(239,287)
Balance, September 30	\$ 4,304,649	\$ 3,213,001

The Hospital purchases medical malpractice insurance under a claims-made policy on a fixed premium basis for WGH, JDGH, MGH and AAA. GAAP requires a health care provider to accrue the expense of its share of malpractice claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Based upon the Hospital's claims experience at these locations, no such accrual has been made. It is reasonably possible that this estimate could change materially in the near term.

Employee Health Insurance

The Hospital has an agreement with a third-party administrator to administer the Hospital's group health plan and to manage employee medical benefits and claims. The Hospital plan is funded by the Hospital and by contributions of employees.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

A summary of changes in the Hospital's self-insurance liability for employee health coverage (included in other accrued expenses in the accompanying balance sheets) for fiscal 2016 and 2015, follows.

	2016	2015
Balance, October 1	\$ 2,105,000	\$ 1,750,000
Provisions for claims reported and claims incurred but not reported	14,041,245	13,384,859
Claims paid	(14,571,245)	(13,029,859)
Balance, September 30	\$ 1,575,000	\$ 2,105,000

Workers' Compensation

The Hospital is self-insured for a workers' compensation plan with a stop loss binder limit of \$325,000.

The following is a summary of changes in the Hospital's self-insurance liability for workers' compensation coverage for fiscal 2016 and 2015.

	2016	2015
Balance, October 1	\$ 1,255,621	\$ 1,144,664
Provisions for claims reported and claims incurred but not reported	596,880	823,735
Claims paid	(575,790)	(712,778)
Balance, September 30	\$ 1,276,711	\$ 1,255,621

Note 15: Deferred Compensation

The following is a summary of changes in the Hospital's deferred compensation liability for the 457(f) plan payable to HCPA (see *Note 2*).

	<u>2016</u>	<u>2015</u>
Balance, October 1	\$ 50,310,621	\$ 49,388,964
Contributions	2,728,606	2,673,380
Investment gain (loss)	5,214,679	(483,386)
Withdrawals	<u>(1,437,453)</u>	<u>(1,268,337)</u>
Balance, September 30	<u>\$ 56,816,453</u>	<u>\$ 50,310,621</u>

Note 16: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Forrest County General Hospital (A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements September 30, 2016 and 2015

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall as of September 30, 2016 and 2015:

September 30, 2016	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observer able Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)

Notes to Financial Statements
September 30, 2016 and 2015

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Hospital holds no Level 3 investments.

Interest Rate Swap Agreement

The fair value is estimated using forward-looking interest rate curves and discounted cash flows that are observable or can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy

Note 17: Future Change in Accounting Principle

In 2016, GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension (GASB 75): GASB 75 replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. GASB 75 requires governments to report a liability in accordance with the new statement and requires more extensive note disclosures and supplementary information about the OPEB liabilities. It is effective for fiscal years beginning after June 15, 2017, and requires restatement of any prior years presented, if practical.

Schedule of Required Supplementary Information

Schedule of Changes in the Hospital's Net Pension Liability and Related Ratios

	2016	2015	2014
Total Pension Liability			
Service cost	\$ 3,530,410	\$ 3,740,713	\$ 3,832,463
Interest	13,267,635	12,440,681	11,696,789
Differences between expected and actual experience	1,186,135	1,333,643	(187,704)
Benefit payments	<u>(6,207,933)</u>	<u>(5,589,011)</u>	<u>(4,389,427)</u>
Net change in total pension liability	11,776,247	11,926,026	10,952,121
Total pension liability - beginning	<u>182,575,415</u>	<u>170,649,389</u>	<u>159,697,268</u>
Total pension liability - ending (a)	<u><u>\$ 194,351,662</u></u>	<u><u>\$ 182,575,415</u></u>	<u><u>\$ 170,649,389</u></u>
Plan Fiduciary Net Position			
Contributions	\$ 10,063,476	\$ 9,782,490	\$ 10,496,076
Net investment income	(2,210,133)	5,766,222	14,838,259
Benefit payments	(6,207,933)	(5,589,011)	(4,389,427)
Administrative expense	<u>(295,012)</u>	<u>(338,826)</u>	<u>(397,436)</u>
Net change in plan fiduciary net position	1,350,398	9,620,875	20,547,472
Plan fiduciary net position - beginning	<u>134,753,017</u>	<u>125,132,142</u>	<u>104,584,670</u>
Plan fiduciary net position - ending (b)	<u><u>\$ 136,103,415</u></u>	<u><u>\$ 134,753,017</u></u>	<u><u>\$ 125,132,142</u></u>
Net pension liability - ending (a) - (b)	\$ 58,248,247	\$ 47,822,398	\$ 45,517,247
Plan Fiduciary Net Position as a Percentage of the Total Pension Liabil	70%	74%	73%
Covered Employee Payroll	\$ 80,727,008	\$ 84,626,337	\$ 86,263,018
Net Pension Liability as a Percentage of Covered Employee Payroll	72%	57%	53%

Note to Schedule:

This schedule is intended to show a 10-year trend. Additional years will be reported as they become available.

Forrest County General Hospital
(A Component Unit of Forrest County, Mississippi)
Schedule of Hospital Contributions

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Actuarially determined contribution	\$ 8,551,127	\$ 8,845,316	\$ 10,106,942
Contributions in relation to the actuarially determined contribution	<u>10,063,464</u>	<u>10,063,464</u>	<u>10,496,076</u>
Contribution deficiency (excess)	<u>\$ (1,512,337)</u>	<u>\$ (1,218,148)</u>	<u>\$ (389,134)</u>
Covered employee payroll	\$ 80,727,008	\$ 84,626,337	\$ 86,263,018
Contributions as a percentage of covered employee payroll	12%	12%	12%

Methods and assumptions used to determine contribution rates:

- Actuarial cost method: Entry age normal method (level percentage of pay)
- Amortization method: Level dollar amount, closed method
- Remaining amortization period: 18 years
- Asset valuation method: Fair market value
- Inflation: 2.5%
- Salary increases: 2.0% - 4.5%, based on age, including inflation
- Investment rate of return: 7.25%, net of pension plan investment expense, including inflation
- Retirement age: 65
- Mortality: RP-2000 Combined Healthy Mortality Table projected using scale AA
- Other information: Plan is frozen to new participants effective July 1, 2011

Note to Schedule:

This schedule is intended to show a 10-year trend. Additional years will be reported as they become available.
